Information on semen straws

Our bulls have the state register (3 letters for genealogize lines and 3 digits for the bull into the line.

National vs international ID

We use the same rules for national and international ID, but normally we indicate the bull by the state register.

¹⁾ 3 character code

²⁾ 12 character code

A) We use modified number of regions, we have 14 regions (in the past we used 74 regions).

B) 14 regions and 74 regions from the past, those regions from the past are still valid for older animals
