

## DESCRIPTION OF NATIONAL PUBLICATION POLICY

<b>Country (or countries)</b>	France
<b>Breed(s)</b>	BSW, RHOL, SIM
<b>Address(es) of official web-site(s) of your country, where bulls receiving an official breeding value can be found</b>	BSW : <a href="http://www.inst-elevage.asso.fr/html1/spip.php?rubrique822&amp;ie_inter=6&amp;ie_CORAIN=21">http://www.inst-elevage.asso.fr/html1/spip.php?rubrique822&amp;ie_inter=6&amp;ie_CORAIN=21</a> Red-HOL : <a href="http://www.inst-elevage.asso.fr/html1/spip.php?rubrique822&amp;ie_inter=6&amp;ie_CORAIN=19">http://www.inst-elevage.asso.fr/html1/spip.php?rubrique822&amp;ie_inter=6&amp;ie_CORAIN=19</a> SIM : <a href="http://www.inst-elevage.asso.fr/html1/spip.php?rubrique822&amp;ie_inter=6&amp;ie_CORAIN=35">http://www.inst-elevage.asso.fr/html1/spip.php?rubrique822&amp;ie_inter=6&amp;ie_CORAIN=35</a>
<b>Number of updates per year of webpage with breeding values</b>	> 4
<b>Are minimum requirements (in e.g. reliability/number of daughters) the same for domestic and import bulls? –and if not, please specify the difference</b>	Same requirements
<b>Are there multiple lists for selected bulls and all bulls (e.g. incl. waiting bulls, bulls below requirements)?</b>	No
<b>If multiple lists – are all lists accessible on your web-site?</b>	-
<b>If multiple lists – what is the difference between the lists?</b>	-
<b>If multiple lists – how many bulls are on the selected list?</b>	BSW : 168 bulls with French genetic evaluation (oct 07) / 6895 bulls with international genetic evaluation (jan 08). Red-HOL : 131 bulls with French genetic evaluation (oct 07) / 2470 bulls with international genetic evaluation (jan 08). SIM : 222 bulls with French genetic evaluation (oct 07) / 14285 bulls with international genetic evaluation (jan 08).
<b>Do you publish Interbull breeding values?</b>	Yes
<b>Are Interbull proofs blended with domestic proofs?</b>	No
<b>If blending of international and national proofs – how is the blending done?</b>	-
<b>Are bulls on your web-site published according to a total merit index (TMI)?</b>	Yes

<b>Minimum requirement for a bull for TMI to be put on the web-site</b>	There is no minimum requirement regarding the genetic level of the bull on TMI (ISU). The only requirements are to be included in the official sire ranking list for production traits and to be official for conformation traits (Rel $\geq$ 50% and nb daughters $\geq$ 15).
<b>Minimum requirement for a bull for production traits to be put on the web-site</b>	Requirements to be included in the official ranking list for production: reliability $\geq$ 60% and no of daughters $\geq$ 20.
<b>Minimum requirement for a bull for conformation traits to be put on the web-site</b>	Requirements to be included in the official ranking list for conformation: reliability $\geq$ 50% and no of daughters $\geq$ 15.
<b>Minimum requirement for a bull for udder health traits to be put on the web-site</b>	Requirements to be included in the official ranking list for SCC: reliability $\geq$ 50%.
<b>Minimum requirement for a bull for longevity traits to be put on the web-site</b>	Requirements to be included in the official ranking list for longevity: reliability $\geq$ 50% and no of daughters $\geq$ 10.
<b>Minimum requirement for a bull for calving traits to be put on the web-site</b>	Requirements to be included in the official ranking list for calving traits: reliability $\geq$ 50% and no of daughters $\geq$ 10.
<b>Minimum requirement for a bull for female fertility traits to be put on the web-site</b>	Requirements to be included in the official ranking list for female fertility traits: reliability $\geq$ 50% and no of daughters $\geq$ 10.
<b>Other comments</b>	<ul style="list-style-type: none"> <li>- Publication policies, as described in this document, are the new rules applied since the 14th of June 2007.</li> <li>- Blending: ITB proofs are not blended with French proofs on conformation, SCC and production. They are blended together within a multiple trait approach for longevity and female fertility.</li> </ul>
